**16:30 - 17:00 Coffee Break Time**
**17:00 - 18:00 Oculoplasty: Eyelid Rosetta for General Ophthalmologist**

Moderator: Khaled Abuhaleeqa

Panelists: Habibullah Eatamadi, Hachemi Nezzar, Naresh Joshi

- |       |                                                                      |
|-------|----------------------------------------------------------------------|
| 17:00 | Eyelid lesions in daily practice<br><b>Ania Buigues Llull</b>        |
| 17:10 | Eyelid tumors and principle of reconstruction<br><b>Naresh Joshi</b> |
| 17:30 | Eyelid office procedures<br><b>Alaa Sadaka</b>                       |
| 17:40 | Principles of peri ocular aesthetics surgery<br><b>Naresh Joshi</b>  |
| 17:50 | Questions & Discussion                                               |

**17:00 - 18:00 Glaucoma: Under Pressure-Exploring New Paradigms in Glaucoma Treatment**

Chairperson: Tarek Shaarawy

- |       |                                                                                                            |
|-------|------------------------------------------------------------------------------------------------------------|
| 17:00 | To zap or not to zap: Is laser iridotomy still relevant?<br><b>Konrad Schargel</b>                         |
| 17:15 | The surgeon will save the day: Primary lens extraction for angle closure glaucoma<br><b>Tarek Shaarawy</b> |
| 17:30 | Let the LiGHT show the way: The age of SLT<br><b>Mohammed Sohaib Mustafa</b>                               |
| 17:45 | A story of molecules and chemicals: Are eye drops still relevant?<br><b>Scott Smith</b>                    |

Each lecture is 10 minutes followed by 5 minutes discussion

## 18:00 - 18:30 Roche Symposium

18:00 | Innovations in the treatment of retinal diseases:  
From clinical trials to clinical practice  
Arshad Khanani

## 18:00 - 18:30 Ophthalmology Storyteller “Part 1 - Oral Abstracts”

Moderator: Areej Abdallah Hasan

Panelists: Shrouq Radi Albtoush, Sumayya Almarzouqi

18:00 | Refractive outcomes after PRK and Trans-PRK for the  
correction of hyperopia; Up to six-years follow-up  
**Mozon F. Al Shareef**

18:07 | Features and common causes of optic neuritis  
in the Middle East  
**Ayah Hajjar**

18:14 | Risk of angle closure glaucoma in attention-deficit /  
Hyperactivity disorder patients using methylphenidate,  
Amphetamines, or atomoxetine  
**Rami Darwich**

18:21 | A dilemma of a choroidal mass  
**Mariam Raouf Fadel**

Each lecture is 5 minutes followed by 2 minutes discussion

18:28 | General Discussion

**BOTH  
CHANNELS****18:30 - 18:40 Abstract Awards****BOTH  
CHANNELS****18:40 - 21:00 Live Surgery (Watany Eye Hospital)**Moderator: Ramy RiadModerators at OR: Amr Elawamry, Nader Fawzy, Rania Nasser**18:40 - 19:40 Round 1: Cornea & Anterior Segment Session**Panelists: Abdel Hakim Taguri, Amna Al Maazmi

- Femto-assisted, OCT guided DALK  
**Sherief Hosny**
- Phaco in white  
**Ahmed Assaf**
- Difficult corneal scenarios  
**Michael Sami**
- Phaco-DMEK  
**Hazem Yassin**

**19:47 - 21:00 Round 2: Subspecialty Session**Panelists: Habibullah Eatamadi, Ihab El Bably, Wael Elmenawy

- Endoscopic DCR  
**Hatem Ayman**
- Ocular surface solution  
**Faris Ishak**
- Anchored hang-back recession  
**Yasser Emam**
- Vitrectomy for macular hole (OCT assisted)  
**Mohamed Moghazy**
- Going around schlemm's canal  
**Yasmine El-Sayed**

## DAY 3 | SUNDAY - 5 FEBRUARY 2023

| UAE TIME      | HALL 1                                                                                                              | HALL 2                                                                   |
|---------------|---------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------|
| 08:30 - 09:30 | <b>Neuro-Ophthalmology:</b><br>Solve the puzzle: A practical approach to unexplained eye pain                       | <b>MEACO</b><br><b>Young Ophthalmologists Session</b>                    |
| 09:30 - 10:30 | <b>Pediatric Ophthalmology:</b><br>Pediatric glaucoma surgical techniques: Video showing steps with tips and tricks | <b>Oculoplasty:</b><br>Facial and peri orbital non-surgical rejuvenation |
| 10:30 - 11:30 | <b>Cornea:</b><br>Keratoconus: Dealing with challenging cases                                                       | <b>Retina:</b><br>Instructional course in managing neovascular glaucoma  |
| 11:30 - 12:30 | <b>Young Ophthalmologist:</b><br>Plan your future with the ESO                                                      | <b>Optometry:</b><br>Binocular vision:<br>Two eyes are better than one!  |

**14:30 - 15:30 Cornea: Refractive Surgery:  
Decision Making in Refractive Lens Exchange**
**HALL  
(1)**
Moderator: Mazen Sinjab

Co-Moderator: Francesco Carones

- |       |                                             |
|-------|---------------------------------------------|
| 14:30 | Risks of RLE<br>Mazen Sinjab                |
| 14:45 | Challenges in RLE<br>Ahmed Assaf            |
| 15:00 | Astigmatism management<br>Francesco Carones |
| 15:15 | Biometry challenges in RLE<br>Hossam Ziada  |

**14:30 - 15:30 Young Ophthalmologist:  
Habits of Successful Ophthalmology Surgeon**
**HALL  
(2)**
Moderator: Ahmed Abdelrahman

- |       |                                                                           |
|-------|---------------------------------------------------------------------------|
| 14:30 | My tricks and tips for beginner in cataract surgery<br>Abdel Hakim Taguri |
| 14:45 | The art of taking surgical consent<br>Irfan Khan                          |
| 15:00 | Personal notes<br>Ahmed Abdelrahman                                       |
| 15:15 | Keys for successful ophthalmology training<br>Abeer Al Ali                |

Each lecture is 12 minutes followed by 3 minutes discussion

**15:30 - 16:30 Optometry: Low Vision/High Rewards:  
Pearls to Improve The Quality of Life of Visually  
Impaired Patients****HALL  
(1)**Moderator: Devakani Suresh

|       |                                                                              |
|-------|------------------------------------------------------------------------------|
| 15:30 | How to incorporate low vision in optometry practice<br>Yazan Gammoh          |
| 15:55 | Prescribing and explaining low vision devices to patients<br>Devakani Suresh |
| 16:20 | Discussion                                                                   |

**15:30 - 16:30 Glaucoma: Doctor, Do I Have Glaucoma?  
Making Sense of Uncertain Cases in Clinic****HALL  
(2)**Chairperson: Scott Smith

|                                                             |                                           |
|-------------------------------------------------------------|-------------------------------------------|
| 15:30                                                       | Optic disc variations<br>Scott Smith      |

| 16:00                                                       | OCT traffic lights<br>Rajesh Sasikumar    |
| Each lecture is 10 minutes followed by 5 minutes discussion |                                           |
| 16:15                                                       | Discussion                                |

**16:30 - 17:30 Retina: Instruction Course on OCT and OCTA Interpretation**
**HALL  
(1)**
Moderator: Kanika Aggarwal

|       |                                                                            |
|-------|----------------------------------------------------------------------------|
| 16:30 | OCTA nomenclature and terminology<br>Anfal Almazrooe                       |
| 16:42 | OCTA: Acquisition and segmentation slabs<br>Feras Jaalouk                  |
| 16:54 | Interpreting artefacts in OCTA<br>Prasan Rao                               |
| 17:06 | OCTA recognition of neovascularization and ischemia<br>Ibraheem El-Ghrably |
| 17:18 | OCT/OCTA of vitreoretinal interface: ERM and LHEP<br>Salim Zafar Asaad     |

**16:30 - 17:30 Instructional Course:  
Manual Small Incision Cataract Surgery**
**HALL  
(2)**
Experts: Amulya Sahu, Ava Hossain, Hossam Ziada, Jagannath Boramani

|       |                                                                 |
|-------|-----------------------------------------------------------------|
| 16:30 | Introduction<br>Amulya Sahu                                     |
| 16:32 | Evolution of MSICS<br>Hossam Ziada                              |
| 16:38 | Principles of scleral tunnel construction<br>Jagannath Boramani |
| 16:45 | Dynamics of scleral tunnel<br>Amulya Sahu                       |
| 16:52 | Nucleus fragmentation in the bag<br>Amulya Sahu                 |
| 16:57 | Nucleus management<br>Jagannath Boramani                        |
| 17:02 | Managing astigmatism with SICS<br>Jagannath Boramani            |
| 17:07 | Why everyone must learn SICS<br>Ava Hossain                     |
| 17:13 | Discussion                                                      |

**17:30 - 18:30 Pediatric Ophthalmology:  
Strabismus Crash Course (My Preferred Approach)****HALL  
(1)**Moderator: Abeer Al Ali

|       |                                        |
|-------|----------------------------------------|
| 17:30 | Infantile esotropia<br>Syed Ali        |
| 17:39 | Intermittent exotropia<br>Hassan Sabry |
| 17:48 | Paralytic squint<br>Hayat Khan         |
| 17:57 | Duane syndrome<br>Christopher Tinley   |
| 18:06 | Reoperation<br>Laila Ababneh           |
| 18:15 | Discussion                             |

**17:30 - 18:30 Uveitis: Tips and Tricks on Uveitis Treatment****HALL  
(2)**Chairpersons: Piergiorgio Neri, Sheikha Dr. Noura Al Qassimi

|       |                                                                 |
|-------|-----------------------------------------------------------------|
| 17:30 | Gold standard on ocular tuberculosis treatment<br>Vishali Gupta |
| 17:42 | Current role of steroids in uveitis<br>Dina Baddar              |
| 17:54 | Traditional immunosuppressive agents<br>Ester Carreño           |
| 18:06 | Interpreting the current role of biologics<br>Piergiorgio Neri  |
| 18:18 | Discussion                                                      |

**08:20 - 09:20 Uveitis: What is that?  
Interactive Challenging Cases for Residents****HALL  
(1)**Chairpersons: Dina Baddar, Sheikha Dr. Noura Al Qassimi

|       |                                   |
|-------|-----------------------------------|
